The Oswego Police Department
2005 Annual Report

"Preserving the Past, Protecting the Future"
About the Report.....

The following annual report consists of a summary of activities for calendar year 2005. This will include manpower allocation, resource allocation, criminal reports, traffic reports, education, training, and enforcement efforts. This report contains the efforts of the Oswego Police Department and offers an explanation of the resources used by the Village.

“I would like to thank Captain Jensen, Captain Plock, Captain Sikora and Sergeant Norwood for their input and work on this report. I would especially like to thank my Executive Assistant Denise Lee and Accreditation Manager Cathy Nevara for their editing and formatting of this report. Without their efforts this report would not be possible”

Chief Dwight A. Baird

Letter from the Chief

I submit for your review the Annual Report of 2005. In 2005 we became one of approximately 560 nationally accredited police agencies in the United States. This prestigious honor was awarded by the Commission on Accreditation for Law Enforcement Agencies.

Outlined in this report you will see that throughout 2005 we responded to more calls for service, made more arrests, issued more traffic citations, issued more warnings, and increased communication and partnerships with businesses and residents. These services were provided while we kept the cost per capita well below other communities our size.

In 2005 the crime rate increased by 10% while the Village’s population increased at approximately 8.5%. The largest contributing variable in the increase to our crime rate was due to retail thefts. We did experience a significant increase in our arrest rate of 140% over 2004. I credit this outstanding increase in the arrest rate to the dedication and hard work of the officers and to the community for assisting us and displaying unwavering support towards our goal.

I will conclude by stating that it is truly an honor to work with such a professional and dedicated staff. I am very pleased with the partnerships that we have forged throughout 2005 with businesses, home owner associations and residents. All of our accomplishments would not be possible without the continued support and dedication of the Village President and Board of Trustees and their commitment to providing quality law enforcement services. We will strive to maintain that level of confidence.

Respectfully submitted,

Dwight A. Baird
Chief of Police
Our Mission....

Our Mission Statement

It is the mission of the Oswego Police Department to serve the citizens of our Village with fairness and compassion. We are dedicated to life and liberty as our Constitution provides. We are committed to the prevention of crime and the protection of life and property and to the enforcement of laws and ordinances. It is our desire to work together with our citizens to maintain a safe place to live and preserve the quality of life.

Our Values . . .

The Oswego Police Department subscribes to the following values in order to successfully fulfill its mission.

Sanctity of Life: We believe in the sanctity of life and are dedicated to the preservation of the liberty and equality provided for in the Constitution.

Integrity: We believe that honesty, morality and ethical conduct are the foundation of public trust and therefore hold ourselves to the highest standards.

Professionalism: We believe that all members of the community we serve expect and deserve equal protection. We strive for the highest degree of professionalism as we partner with the community to find solutions to mutual problems.

Employees: We value employees and encourage their efforts at self-improvement. We will empower them to make decisions which enhance their performance, benefit our agency and shed positive light on the law enforcement profession.

Departmental Purpose

Preserve the public peace, prevent crime, detect and arrest offenders against the criminal laws and ordinances effective within the Village, suppress riots, mobs and insurrections, disperse unlawful or dangerous assemblages, protect the rights of all and preserve order at all elections and assemblages.

Administer and enforce laws and ordinances to regulate, direct, control and restrict the movement of vehicular and pedestrian traffic and the use of streets by vehicles and persons, and to adhere to rules and regulations which shall facilitate the lawful goals of the department.

Remove all nuisances in public places, inspect and observe all places of public amusement or assemblage and all places of business within the Village limits which require any State, County or Municipal permit/license.

Provide for the attendance of Police Officers or civilian employees in court as necessary for the prosecution and trial of a person charged with crimes and other violations of the law, and cooperate fully with the law enforcement and prosecuting authorities of Federal, State, County and Municipal Governments.

“Coming together is a beginning, staying together is progress, and working together is success.”

Henry Ford
The Administrative Division is comprised of the Chief of Police, Executive Assistant to the Chief of Police, and the Accreditation Manager. Their responsibilities include but are not limited to financial management, professional standards development and compliance, liaison to the police commission, internal affairs review, leadership of divisions, ensuring the departmental and divisional goals are achieved, resource allocation, and planning for the future.

Professionalism

The Oswego Police Department was awarded its initial accreditation certificate from the Commission in November 2005. Accreditation requires a police department to conduct an in-depth review of every aspect of the department’s organization, operation, management, and administration.

The Oswego Police Department’s on-site occurred August 20-24, 2005. Captain James Jensen was the Accreditation Manager responsible for overseeing the task of ensuring the department’s readiness for such an examination. He deservedly accepted the Certificate of Accreditation on November 19, 2005 in Nashville, Tennessee. Cathy Nevara is the new Accreditation Manager and will be responsible for the re-accreditation that is set to occur in 2008. Accreditation is for three years, during which time the department must submit annual reports attesting continued compliance with those standards under which it was initially accredited.

Oswego is now one of the 52 Illinois law enforcement agencies that have been awarded Law Enforcement Accreditation. Nationwide there are 558 law enforcement agencies that have earned this distinguished award.

"A true leader has the confidence to stand alone, the courage to make tough decisions, and the compassion to listen to the needs of others. He does not set out to be a leader, but becomes one by the equality of his actions and the integrity of his intent."

Douglas MacArthur
As the Village of Oswego continues to grow, the challenge of the Oswego Police Department will be to maintain the current high level of service along with service satisfaction. The Police Department continues to review resource allocation in order to provide optimum service with prudent spending. During 2002 and 2003, two surveys were conducted by two separate entities and both found the police department service satisfaction to be very high. One survey conducted by Northern Illinois University found that 85.7% respondents rated the police department services as excellent/good. Another survey conducted by Western Illinois University found that 86.5% respondents were satisfied with the police department services provided. In 2006 the department will have another survey completed. The department has an authorized strength of 45 sworn personnel. According to the United States Department of Justice a community our size should have 2.3 officers per 1,000 residents; based on that formula the police department should have 53 officers.
Per Capita Comparisons

In an effort to provide a benchmark for expenditures, we surveyed communities our population size and a little larger, due to the fact that we are growing, and created the table below. We then took the overall budget and divided it by the population and the result is a cost per capita. We also included the 2004 Illinois State Police Uniform Crime Reporting Rate as a uniform measurable number for comparison. As you can see in this comparison, we provide law enforcement services at a lower cost per capita and have the lowest crime rate. We also calculated an average for your review. Each community supplied us with the personnel, total budget and population.

Court Dispositions
The Oswego Police Department receives court disposition money from the Circuit Clerk for fines assessed by the court for traffic citations, arrests and restitution. Approximately 38.5% of the fine from every traffic citation is received from the Circuit Clerk along with a percentage for traffic school and DUI arrests.

Fines & Fees
The Oswego Police Department receives fines for ordinance violations and collects fees for document processing and fingerprinting. Document processing includes accident reports, Freedom of Information requests, and subpoena compliance. We provide fingerprint service to our residents, the School District and businesses for employment background checks and criminal history reference checks.

Reimbursements
Our officers work extra-duty security and traffic control assignments that we invoice monthly for reimbursement. Extra-duty assignments consist of pre-negotiated events that continue from month-to-month. Other events are assigned and billed based on the one-time need or special event permit.
Internal Affairs Report

The Police Department investigated seven (7) complaints against members of the department in 2005. The findings of each rule violation are included below.

**Definitions of Dispositions**

**Exonerated:** The act(s) alleged did occur, but the act(s) are justified, lawful and proper.

**Misconduct Not Based on Original Complaint:** The investigation revealed that the acts of misconduct that occurred were not contained or alleged in the original complaint.

**Not Sustained:** The investigation failed to discover sufficient evidence to clearly prove or disprove the allegations made in the complaint.

**Policy Failure:** The investigation revealed the alleged acts did occur; however the member was acting in accordance with Department policy.

**Sustained:** The investigation disclosed there is sufficient evidence to clearly prove the allegations made in the complaint.

**Unfounded:** The investigation indicates the act(s) alleged did not occur or that it failed to involve members of the Department.

We investigated twenty (20) officer conduct inquiries throughout 2005. A conduct inquiry investigation is conducted when a citizen calls the police department and questions the officer’s conduct but does not wish to sign a formal complaint. We investigate these and monitor them as an early warning device to avoid or eliminate future situations.
2005 was a very busy year for the Support Services Staff. The Clerical staff has worked hard to keep our reports, statistics and files up to date. As we continue to grow, the volume of records generated by our Officers also continues to grow. We began 2005 focused on a few goals that would help make our records process more efficient and distribute our workload.

- Re-organizing the records room was one of our priorities. This year we were able to move forward with a records destruction order and archive all files older than three years. Moving these records to the basement storage cleared up a lot of space in the records room. We have added some shelf separators to create a better filing system for the one year old files and have purchased several computers and software to help streamline the data entry process.

- Training was another goal of the Support Services Division. All of Support Services staff received additional training on our New World Police reporting software and we sent two members to Troy, Michigan for advanced New World software query training.

- Expanding the use of our New World software system became a necessary goal after we received more training. We created an inventory section that includes printed bar code labels for property identification. We also began entering training into a New World module and continue to explore other modules.

- We have had a long term goal of keeping our lobby open 24-hours a day, seven days a week. Towards the end of 2005 we moved closer to this goal by hiring more civilian personnel and expanding our lobby hours to three shifts Monday through Friday and filling some weekend hours with a part-time receptionist. We anticipate fulfilling our 24-hour, seven days a week lobby goal within the next year.

### Hours Worked

The Patrol Officers continue to work 12-hour shifts maximizing the number of Officers on the street and provide us with the best police presence 24-hours a day, seven days a week. As seen in the table below our overtime did increase to 4,435.00 hours. That is an increase of 955 hours over last year. Of the 955 hours, we requested reimbursement for 554 hours. The total reimbursed overtime hours for 2005 was 1,802 hours or $74,165.03 compared to 2004 reimbursed overtime hours of 1,248 hours or $46,000.00.

The table below represents the total personnel, hours worked, comp time earned and overtime, along with a comparison to the previous three years.

*Part-Time Personnel Included*
Training & Educational Achievements

In 2005 members of the Oswego Police Department participated in over 5,928 hours of training. This represents an increase of approximately 1,850 hours over our 2004 total training hours and averages over 100 hours per employee. Some of the topics included in these hours were Cultural Diversity, Biased Based Profiling, Harassment and Sensitivity Training, NIMS, Unified Command, and Firearms & Defensive Tactics. We also sent most of our patrol officers to become certified juvenile officers. A juvenile officer is required to be present under the Juvenile Court Act whenever a juvenile is taken into custody.

All sworn members of our department participated in defensive tactics training. This training is provided by our in-house instructors, Officer Chris Biggs and Officer Jason Heller, and is designed to keep our officers up to speed with control tactics, handcuffing and officer safety.

Firearms proficiency and tactics training was provided by our Master Firearms Instructors, Sergeant Scott Shockley and Sergeant Mike Stark. The Illinois Law Enforcement Training and Standards Board mandate that all officers qualify once per year on an approved 30 round course of fire and must score an accuracy level of 70%, or 210 points. The Oswego Police Department continues to qualify twice a year on a 50 round course of fire and maintains an accuracy level of 80%, or 400 points. The department proficiency average for 2005 was 407 and the Top Gun/Top Shooter award went to Officer Steve Lawrence with a score of 478.3.

The table below shows the number of training hours per month in 2005, and is compared to 2003 and 2004.

The Village of Oswego Police Commissioners recently adopted an education requirement to become an Oswego Police Officer. Entry level candidates must now possess 60 credit hours of college and current employees must possess a Bachelors degree for promotion above the Patrol Officer level.

Our officers and civilian employees continue to seek education to enhance their skills and broaden their knowledge base. The Oswego Police Department will be forging a partnership with Benedictine University to offer higher education to Fire Fighters and Law Enforcement in this area. Many of our Officers will be building upon their present level of education and we presently have three Officers working towards their Masters of Art degrees.

In March of 2005 Captain Nicholas Sikora graduated from the FBI National Academy in Quantico, Virginia. The FBI National Academy is a very prestigious accomplishment and only a small percentage of all the Law Enforcement Officers are able to attend the three month National Academy. The Village of Oswego has long supported this higher level of training and Captain Sikora now joins Chief Dwight Baird and Captain Steven Plock as active Oswego Police Command Personnel who have attended the FBI National Academy.
Racial Profiling Study

In 2004 all Illinois Law Enforcement Agencies were required to begin compiling information regarding the race of our vehicular drivers. This unfunded mandate is known as the racial profiling study.

In 2005 the Oswego Police Department had 12,213 total traffic stops. Breaking down that number we found that 9,614 or 78.7% were Caucasian and the remaining 2,599 or 21.3% were minority groups defined by the law.

When we examined exactly who we were stopping, we found that only 3,883 or 31.7% of all drivers stopped were from the Oswego 60543 zip code. Another interesting element of our analysis was that 78.2% of all of our traffic stops were from 10 communities.

The table below illustrates the activities of the department in the following categories: Top 10 communities for stops, raw number of traffic stops from that community, percentage of traffic stops from that community, the minority base of that community, and the percentage of minorities stopped from that community. (Based on data from Northwestern University)

</tbody>
</table>

Another key factor in determining our true driving public was that out of 814 total vehicular accidents in 2005, 55% did not reside in Oswego and another 13% were listed as hit and run driver unknown.

We believe that our motoring public is more closely tied to the school district demographics since the students that go to the schools in our Village drive to school functions. The breakdown for the schools located within our Village is 74% Caucasian and 26% minority.

In 2005 we received (2) two complaints and (2) two inquiries from motorists regarding alleged racial profiling. All of the complaints / inquiries were investigated and determined to be unfounded and supported by in-car video.

It is the policy of our police department to enforce the traffic laws equitably, investigate all allegations of racial profiling and to not tolerate any type profiling based on race.

“Let us not be content to wait and see what will happen, but give us the determination to make the right things happen.”

Peter Marshall
Crime Rate Explanation

- Every year the Illinois State Police collects data from police departments throughout the State. The data they collect is on specific crimes and they are as follows: Murder, Criminal Sexual Assault, Robbery, Aggravated Assault and Battery, Burglary, Theft, Motor Vehicle Theft, and Arson. The eight crimes are considered serious crimes or Part 1 Crimes as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports. The total raw number of these aforementioned crimes is called the Total Crime Index.

- A formula was developed by the committee to provide a uniform crime rate based on each jurisdiction’s population. The purpose of the formula is to compare all cities, towns, villages and states equally. This Crime Rate indicates the volume of crime occurring within a given population. It is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

  \[
  \text{FORMULA} \quad \text{Village of Oswego 2005} \\
  \text{Crime Index} \times 100,000 = \text{Crime Rate} \\
  \text{Jurisdiction Population} = 23,131 \\
  \\
  471 \times 100,000 = 2,036.2 \\
  \\
  \text{The following will provide an explanation to understand the crime rate figures. There is a short descriptive table outlining Part 1 Crimes and how they are grouped and what is considered for the crime rate calculations. Next is a brief overview of the last 9 years of the projected population for the Village of Oswego and the crime rate as reported to the Illinois State Police.}

- Also for your review, a list of Part 2 Crimes with a short description of what a Part 2 Crime is considered. To provide a more complete picture of reported crimes in the Village, we included these crimes in the report. Part 2 Crimes will also be referred to on other pages within this report.

* Census Data

There are several factors that affect crime. Some of these factors are economics, social issues and education. The Village of Oswego is a growing and thriving community that has tremendous involvement from its residents. The partnerships between the residents, schools, community groups and the Police Department affect the crime rate. This method of determining a crime rate for a community is only a small portion of all of the crimes. Therefore, relying on this method alone in determining a community’s crime rate would be exclusionary of other factors.
Part 1 & Part 2 Crimes

The Part 1 Crimes table shows retail theft as the crime that increased by the largest margin in 2005. We have linked the increase in reportable retail thefts to the increase in our retail shopping locations. To summarize, in the past 10 years the population has increased 279%, in that same time frame the total crime index has increased 74%. With those two factors in mind, the crime rate has decreased 54% in that same 10 year period.

### Crimes & Calls for Service Summary

The following table is a breakdown of Part 1 and Part 2 Crimes and the Calls for Service that the Police Department received throughout 2005. Every time a citizen or resident requests the Police Department to respond to their home to take a police report or meet with an officer, a Call for Service number is generated. Calls for Service encompass a wide variety of activity that include some of the following:

- 911 Calls
- Criminal Reports
- Lock Outs
- Traffic Stops
- Ordinance Violations
- Accidents
- Assist other Police Departments
- Assist Fire and E.M.S.
- Child Safety Seat Installations
- Warrant Arrests
- Stake Outs
- Sex Offender Registrations
- Burglar Alarms
- Hold-up Alarms
- Crime Prevention Notices
- Foot Patrol
- Assist Schools or Businesses
- Business Checks

## Crime, Arrests, Lock-Up Statistics

In 2005 the Oswego Police Department handled the in-take custody of 429 inmates. This is an approximate 45% increase from the 296 inmates from 2004.

In 2005, the largest percentage of inmates have been male adults inmates with 263 (61%), followed by 81 juvenile males (19%), followed by 67 adult females (16%), and lastly 18 juvenile females (4%).

---

The Police Department has a total of 30 vehicles which enables police services to be provided by personnel. The above tables identify the allocation of departmental vehicles and the costs associated with the maintenance and operation of these vehicles.
NEW POLICE K-9 GOES IN SERVICE

In 2005 the Oswego Police Department’s K-9 program purchased its current dog “Ben” and he and Officer Pat Wicyk completed their training and began working together. Ben replaced the departments previous K-9 who had to be retired due to medical problems. Since their certification together Officer Wicyk and Ben have continued to conduct training; logging over 50 hours of training from June through December.

Ben is a German Shepherd that is trained in several areas including handler protection, tracking, and drug work. He has been instrumental in assisting officers from the Oswego Police Department, the Kendall County Cooperative Police Assistance Team, and several area departments. Since going into service in late May through the end of December of 2005 he was used in 48 separate K-9 situations. He has successfully located several subjects who have fled on foot from officers by following their scent tracks and allowing the offenders to be arrested, and he has located several different hidden stocks of illegal drugs in both vehicles and homes while assisting patrol and drug investigation officers.

TRAFFIC UNIT BEGINS OPERATION

In January 2005 the Oswego Police Department saw the implementation of its first ever Traffic Unit. This unit was formed to deal specifically with traffic related issues in our Village; these range from speeding complaints in our subdivisions, to the reconstruction and “technical investigation” of motor vehicle accidents involving serious or fatal injuries.

The unit began with Officer Matt Mumm as the first officer assigned full time. Officer Mumm is both a certified Truck Enforcement Officer and an Accident Reconstructionist. One of his first duties was the analysis of the accident data available to provide our highest crash incident locations and the causes for those crashes so that we could conduct enforcement efforts in those areas to reduce the crash frequency there. This effort appears to be having an effect as most of our high frequency intersections saw a decline in crashes and those that did not decline stayed the same. We have also seen a 3% decrease in the number of our residents involved in crashes from 2004 to 2005. This is an accomplishment as we continually see our traffic volume increasing with our continued growth.

Officer Mumm completed the research and writing for a successful adoption of the first village ordinance governing overweight/oversized truck permits. Officer Mumm worked with several truck enforcement specialists in the
state and with local trucking firms to devise the best possible ordinance that provides for both the notification of the loads, collection of appropriate permit fees, and allows for smooth business operations for the companies involved. From its adoption as an ordinance in October through the end of December, 81 permits were issued.

In September of 2005 Officer Shawn Andersen was assigned as the second officer in this unit. Officer Andersen is assigned to the traffic unit on a part-time basis as he is also the department’s DARE officer and is responsible for teaching all of the DARE classes in the elementary schools located within the Village.

The traffic unit is overseen by Sergeant Dan Kipper who also has duties as a swing shift patrol supervisor. Sgt. Kipper has been instrumental in compiling data into usable forms and creating extra patrol areas that both the traffic officers and patrol officers utilize to conduct extra patrols in areas identified; currently we have over 20 areas that receive these patrols on a rotating basis. This continues to be a growing issue as our village, and the towns around us, continue to grow and more motorists travel within and through our town. Residents can also inform us of traffic issues in their neighborhoods by completing the form available on our department web site.

The traffic unit participates in several state-wide programs. One of the programs is sponsored by the Illinois Department of Transportation and is a recognition program for police officers that excel in the enforcement of DUI laws. Currently, Officer Ryan Kaminski has received his first award pin for 25 DUI arrests and is nearing the 50 arrest award. Two other programs are sponsored by the Illinois Association of Chief’s of Police; both are for safety belt enforcement. The first known as “Saved by the Belt” is a nomination process for crash victims that have been saved from serious injury or possible death because of their use of a seat belt. The other program “Beyond the Belt” is for officers who make an arrest of a serious criminal violation that was initiated out of a safety belt enforcement traffic stop.

The time is always right to do what is right.
ILEAS MEMBERSHIP & HURRICANE KATRINA RELIEF

The Oswego Police Department played a role in the relief efforts for the victims of Hurricane Katrina this past summer in two different ways. First, as a member of the Illinois Law Enforcement Alarm System (ILEAS), which is a State-wide mutual aid group for law enforcement, we were one of over 100 law enforcement agencies to agree to send an officer to Louisiana. We had several officers volunteer to go as our department representative; Detective Chad Dickey was selected to make this trip.

Detective Dickey deployed in the first group of officers from Illinois. He served from September 3rd through September 19th as part of the “first wave” of Illinois officers. While in Louisiana, Detective Dickey worked 12+ hours a day almost every day of his deployment. He filled roles in various law enforcement, rescue, and recovery duties working in teams with other Illinois officers and Louisiana officers.

Secondly, Oswego Police Patrol Sergeant Jeff Burgner assisted members from the Oswego Fire Protection District in organizing the collection of relief supplies to send to the hurricane area. Sgt. Burgner helped to secure the donation of a semi-truck, trailer, and driver and then organized donation efforts to fill the truck at a collection point in Oswego Commons Shopping Center. This truck then transported all of the items collected to a distribution point for Louisiana.

As part of the overall review of operations and changing programs, one important local review was the update of the Emergency Operations Plan (EOP). The plan was updated and brought into compliance with current federally mandated standards. These include the adoption of the Incident Command System and the National Incident Management System. More importantly it creates standard language and management guides for operating in a crisis situation. This avoids confusion and sets common procedures that officers from outside agencies understand and also operate under.

An important aspect of the entire ILEAS program mentioned earlier is the available assistance of other police agencies in the event of a natural disaster or a major police event in our village. As a member of ILEAS we have completed “alarm cards” that pre-select other departments that participate in the program to respond to our assistance. These agencies are requested based on various levels of assistance we would need and are available to us after we initiate one call to a centralized dispatch center for the program.

We also have access to many other specialized assistance units from ILEAS that can be mobilized from our region or if our need is great enough from other regions all across the State of Illinois. Some of these include large self contained Mobile Command Units, Mobile Communications Trailers, Helicopter Support Units, and many others.
2005 USE OF FORCE COMPARISON

In calendar year 2005 the Oswego Police Department arrested a total of 1,147 subjects. These arrests were the result of several different types of contacts between the subjects and officers of the Oswego Police Department. Some examples of the contacts are from traffic stops, criminal reports taken by patrol officers, criminal reports taken by School Resource Officers (SRO’s) assigned to the high schools and junior highs, and arrests that are made by investigators following up on previous case reports. The following is the breakdown by area for arrests:

857 by the Patrol Division
163 by the Investigations Division (not including the SRO’s)
127 by the School Resource Officers
1,147 Total arrests

In the process of making these 1,147 arrests members of the Oswego Police Department were occasionally required to use some level of force. That level of force is anything above a subject being compliant and cooperating with the arrest procedures that would require an officer to utilize some sort of compliance technique. Those techniques can range anywhere from the use of cooperative or contact controls, such as leverage control techniques all the way up to the use of deadly force. In 2005 the Oswego Police Department had eight (8) separate arrests in which non-compliant subjects were involved in arrests that made it necessary to utilize some “use of force” to effect the arrest. Of these eight arrests, seven were reviewed internally by our in-house, nationally approved review process. This process showed that all seven of these uses of force were justified and were acceptable uses of force levels that did not exceed that which was needed to affect the arrests. The one instance of the use of deadly force that the Oswego Police Department had in 2005 was investigated by the Illinois State Police and reviewed by the Kendall County State’s Attorney. That use of deadly force was also found to be completely justified.

The need for the use of force above verbal orders or directions to a suspect to make an arrest was encountered by our department in less than one percent of the total arrests made in 2005. We believe this shows the results of our continual training on arrest and tactics procedures, including the importance of proper verbalization of instructions to suspects and officer procedures.

“Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover.”  

Mark Twain
In the calendar year 2005, the Criminal Investigations Section of the Oswego Police Department consisted of the Criminal Investigations Commander, Detective Sergeant, three general assignment Detectives, three full time School Resource Officers, one part time elementary school D.A.R.E. Officer and one CPAT Narcotics Officer. The primary goal of the general assignment detective is to seek, gather, and cultivate information regarding criminal activity for effective and efficient prosecution. In 2005 the following list of goals were achieved through a combination of training, communication techniques and technology.

2005 GOALS

To improve the quantity and quality of investigations with regards to computer based crimes. Detectives Sherwood and Mall completed the final computer training session in December. This training allows them to actively pursue computer facilitated sexual predators.

Implement and utilize crime mapping software. A monthly crime analysis report, daily crime bulletin and a pin mapping system have continually been updated and made available to patrol. These reports allow the patrol division to identify areas of concern and adjust their patrol efforts accordingly. Computer based mapping software which integrates with our New World reporting system has also been utilized. Crime mapping will continue throughout 2006.

Increase the amount of criminal intelligence networking throughout the area. Intelligence sharing and developing relationships with other law enforcement and non law enforcement entities has been and will continue to be a major priority for investigations. In 2005 six initiatives were implemented and maintained which foster communication and intelligence sharing.

Increase the amount of proactive investigative activities in the Village. Proactive crime prevention efforts have been one of the major focuses of the investigations division. Various techniques (i.e. surveillances, bike patrols, foot patrols, video surveillance, etc) have been utilized throughout the year to assist in this process. These types of activities will continue to be employed throughout 2006.

Major Investigative Cases in 2005

Case 2005-2797 (Child Pornography) In August, Detective Dickey received an anonymous phone call from a subject who stated that he knew of someone who lived in the Village who had large amounts of child pornography on his computer. After talking to this subject on the phone, Detective Dickey convinced him to come into the police department and make a report. Utilizing his interview skills Detective Dickey was able to gather enough information to obtain a search warrant. A subsequent search of the offender’s house revealed hundreds of child pornography photographs. The offender in this case was an employee of the Kendall County Special Education Co-op and assigned to a junior high school in the Village. The offender has been charged with multiple counts of child pornography and is currently awaiting trial. Information received from the offender’s computer has led to several other offenders in other jurisdictions.
**Case 2005-3241 (Armed Robbery & Home Invasion)** In September, Detective Dickey responded to a home invasion that occurred on Monroe Street. The victim, who was in his residence at the time, had a gun shoved in his face and a large amount of money stolen from his person. With few leads, information was developed by Detective Dickey and within two hours one of the two offenders was taken into custody. Upon interviewing the offender and developing an independent informant, the second offender in this case was identified and charged. As a result of Detective Dickey’s instincts and diligence both offenders and the weapon used in this crime were apprehended within fifteen hours of the initial call. This is just one example of Detective Dickey’s ability to take a case with little information and turn it into a successful prosecution.

**Case 2005-4438 (Kidnapping/Aggravated Criminal Sexual Assault)** In December, a juvenile victim was abducted at gun point from a local business in Oswego and later sexually assaulted. Detectives Rob Sherwood and Chad Dickey responded to Copley Hospital and immediately began investigating. Their knowledge of the job, positive attitude and ability to communicate with not only the victim and offender but the victim’s family led to the identification and arrest of the offender. By remaining professional and looking into all of the facts in this case it has come to a successful conclusion.

**19 Separate Cases (Burglary to Motor Vehicle)** In June, three subjects were charged with multiple counts (19) of burglary to motor vehicle. Detectives John Mall and Rob Sherwood received information from a confidential source that three individuals had been involved in multiple car burglaries throughout the Village. Upon gathering facts and evidence pertinent to the case, one suspect was brought in for an interview and later admitted his involvement in the burglaries. Based on the information obtained during the interview, a search warrant was served where additional evidence was recovered. A total of three subjects were charged with multiple burglaries.

**Case 2005-3771 (Armed Violence, Unlawful Restraint, Criminal Sexual Assault)** In October, Officers were called to a residence for a domestic dispute between a husband and wife. Detective John Mall, the on call detective was called to the scene to assist in interviewing the victim and offender. Through the course of the investigation it was learned that the wife had been held against her will, threatened with a knife and sexually assaulted. Based on the information obtained during the interview several felony charges were approved. Detective Mall's ability to communicate brought about a successful conclusion to this case.

**Property and Evidence Management**

Approximately 1,179 items were accepted and stored in the evidence area in 2005. Of these, 87 were “found” items with a large percentage being bicycles. During this same time period, approximately 208 items were removed from the evidence and property storage area. These items were either returned to their owners or destroyed per court orders. The department will have an auction in the spring of 2006 to further remove any items that are not of evidentiary value.
School Resource Officers

The School Resource Officers provide an invaluable service to the children of this community by providing a safe school environment conducive to learning. Currently there are three School Resource Officers, one assigned to each of the two high schools and one assigned to Thompson and Traughber Junior High Schools. The daily responsibilities of the School Resource Officers include counseling to both students and staff as well as providing instruction on police related topics such as narcotics, gangs, laws, search and seizure, report writing, etc. With the growth of the Village of Oswego and the Oswego School District the School Resource Officer program will continue to expand and evolve in order to assist the Oswego School District in providing a safe and violence free community.

** In 2004 & 2005 there were two high schools and two junior high schools within the Village of Oswego.
Major Crimes Task Force

The Kendall County Major Crimes Task Force, commanded by Sergeant Mary Kay Zimmerman and assisted by Detective Joe Jasnosz of the Kendall County Sheriff's Office was formed in 2005 in response to a mutual need to provide strong investigative resources and expertise to any county law enforcement agency. The MCTF is comprised of officers from Oswego, Yorkville, Plano, Plainfield, Minooka, Kendall County Sheriff's Office, Kendall County Coroner, and the Illinois State Police. The following are the types of cases which the MCTF may be called for:

- Homicides
- Serial Sexual Assaults
- Serial Arson
- Major Bombing
- Non-Parental Kidnapping
- Complex Violent Crimes Against People
- Other Heinous Crimes

The MCTF was activated one time in 2005 to investigate a Yorkville case in which the victim was seriously injured in a stabbing. Two offenders were identified, located and arrested within 16 hours of activation. One offender subsequently pled guilty to Armed Violence. The second offender's case is still pending.

Kendall County Cooperative Police Assistance Team

The Kendall County Cooperative Police Assistance Team (CPAT) is a multi-jurisdictional police agency comprised of law enforcement representatives from the municipal police departments of Oswego, Yorkville, Plano, the Illinois State Police and the Kendall County Sheriffs Office. CPAT is a narcotics based enforcement team focusing on the sale and distribution of illicit narcotics. The funding for this team comes from all law enforcement entities represented and is supplemented with federal funds from HIDTA (High Intensity Drug Trafficking Area). The year 2005 proved to be a busy year for CPAT:
