Blueprints for the Week

June 23, 2017

Editor – Deputy Chief Jim Jensen

Volume 1, Issue 10

Photo of the Week

The installation of the footings started this week! Footings are an important part of foundation construction. They are made of concrete with rebar reinforcement that has been poured into the excavated trench. The purpose of footings is to support the foundation and prevent settling.

Video Clip of the Week

This week's video is another time-lapse, containing 12 hours of footage, condensed into a 2 minute clip.

Footings!

Despite the appearance of threatening weather, Wagner Concrete was able to start pouring concrete. It won't be long before we start seeing the building go vertical!

Com Ed

The underground electrical work is now complete!

Next Week

- ❖ **Com Ed** - Now that the new underground lines have been buried, they will be removing the old poles and lines along Woolley Road.
- ❖ **S & K Excavating** - Ongoing earthmoving efforts.
- ❖ **Bisping** - Sanitary sewer ground work will begin.
- ❖ **Wagner Concrete** - Footings will continue, weather permitting.
