Blueprints for the Week

January 19, 2018

Editor – Deputy Chief Jim Jensen

Volume 3, Issue 2

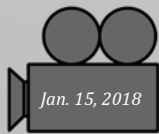

Photo of the Week

This picture was taken from the second floor Investigative Major Case room. How cool is this?!

Crews from Lamp Construction will begin constructing the second floor metal stud walls. Things will quickly take shape then!

Video Clip of the Week

This week's video is another time-lapse, containing 12 hours of footage, condensed into a 2 minute clip. Winter work in progress! Follow this link to view:

Building Exterior

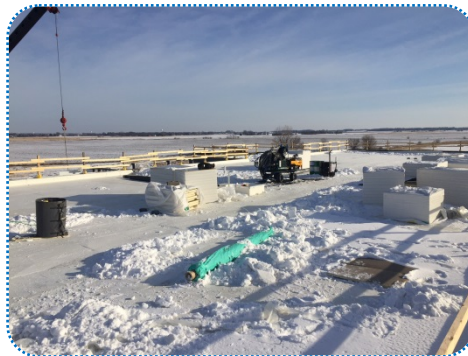

This week we are going to focus on the exterior of the building. Crews have been working hard installing the curtain wall (glass), stone and roofing. They have battled extreme cold, sleet and snow to get the job done.

AREA Erectors completed the installation of the employee entrance vestibule. It will eventually be enclosed in glass.

Alliance Glazing installed the second floor curtain wall and glass panels on the North side of the building this week.

Sterling Roofing battled the wind, cold and snow this week. Kudos goes out to these guys for braving the elements! The second floor roof is now finished!

A.L.L. Masonry began installing the stone on the South Training Wing wall.

Next Week

Next week's weather forecast looks good!

- ❖ **Outside** - Crews will continue to work on the exterior curtain wall, training wing stone and roof.
- ❖ **Inside** - They will continue the installation of the HVAC duct work, hydronic piping, sprinkler piping and masonry walls
